Networking Breakfast Thursday 12 October 2017

with guest speaker **Marnie McLaren ('91)** Head of Investment Research & Governance at BT Financial Group
Director, Founding Member and previous Chair of the Financial Industry Community Aid Program (FICAP)
Sydney Chapter Ambassador for QBI's Concussion Studies project | #FSPower50

Marnie has forged a highly successful career in the financial services industry, and in her current position monitors approximately \$100bn of investments across BT's Platform, Superannuation and Asset Management businesses.

In 2006, Marnie was diagnosed with a brain tumour, which was fully removed after eight surgical procedures. Considering herself

one of the lucky ones, Marnie felt compelled to pass on her great fortune, establishing FICAP – the first charity within Sydney's financial services community, which has since helped fund over 13 Australian charities to the tune of \$1.5m.

Join us for breakfast to listen to Marnie, named by Financial Standard as one of the top 50 most influential social media users in finance in 2014 and 2015.
