# Trends in EDUCATION SERIES

## Invitation

## CAREERS of the FUTURE

*Presented by*  
**Dr Jenine Beekhuyzen OAM**

*By the time the students of today have finished their formal education, the job market will have changed drastically and careers that we have never even dreamed of will be commonplace. So what are the careers of the future? How do we prepare for the unknown and develop skills for an ever-changing world? What can we do now to ensure that we are developing innovative, creative young people who will thrive in tomorrow's world?*

The Tech Girls Movement Foundation, founded by Dr Jenine Beekhuyzen, focuses on challenging entrenched societal perceptions and targeting key skills in order to empower young women to lead across STEM fields.

---

**Under the COVID safe plan:**

- All attendees will need to check in upon arrival via the Check In Qld app.
- Hand sanitiser will be made available.
- No person should attend if they have, in the last 14 days, travelled from overseas or a COVID-19 hotspot or had close contact with a person who is positive for COVID-19.
- No person should attend if they are or have recently experienced cough, fever, sore throat, fatigue, shortness of breath, loss of smell or taste, diarrhoea, vomiting or nausea.
