

**YOUNG PAST STUDENT OF DISTINCTION AWARD
2018**

Emma Sievwright
Graduation: 2011

Since graduating from St Margaret's, Emma has completed a Bachelor of Science majoring in Biomedical Science at The University of Queensland. Following this, she undertook an honours degree in the field of Biomedical Anatomy and this research has since been published in "Forensic Science International".

Emma graduated at the top of her cohort with First Class Honours and was awarded a Deans Commendation of Academic Excellence. During her degree, she also co-authored a textbook chapter investigating unknown-provenance osteology.

Emma also took part as the youngest baker on Season 3 of the television show "Great Australian Bake Off". During her time on the show, she was able to incorporate her love of science into various bakes and promote her primary passion – women in science.

Emma is currently in her first year of Dentistry. She credits St Margaret's with igniting her love of science, as well as her belief that women can do anything.
