Invitation

The implications of ChatGPT for Education – Silver Bullet or Werewolf?

Presented by Dr Chris Blundell

ChatGPT and other artificial intelligence (AI) technologies are the subject of considerable debate in education circles. Clearly, AI has implications for education, and, like all disruptive innovations, those implications have been greeted with a mixture of excitement and concern.

In this session, Dr Chris Blundell, from QUT's School of Teacher Education and Leadership, will provide an overview of the current state of AI in education and the implications for teaching, learning, and assessment. The session will include opportunities to explore ways for teachers and students to use AI.

Dr Blundell is Academic Lead for QUT's Master of Education degrees. He teaches units on assessment, digital pedagogies, and leadership across all of QUT's education degrees. His research focusses on design-based professional learning and the challenges of integrating digital technologies in teacher practice.

Please bring your laptop or phones to participate in this event.

WHEN
TUESDAY 16 MAY

4:00pm for a 4:30pm start
Finishes at approximately 6:00pm

WHERE
St Margaret's Arts Centre Foyer
11 Petrie St, Ascot QLD

RSVP
COB Monday 8 May
